**Functional Assessment Service Team - FAST:**

A Functional Assessment Service Team consists of trained government and non-government personnel who have experience working with individuals that have disabilities and/or access and functional needs. A FAST can be requested in the event of a disaster to deploy to a shelter to conduct assessments of shelter residents who have disabilities and/or access and functional needs. FAST members must be willing and able to work under stressful conditions for long hours. FAST members help to develop and implement reasonable accommodations, and generate resource requests for equipment that will allow shelter residents with disabilities and/or access and functional needs to remain in a general population shelter. These resources may include durable medical equipment, consumable medical supplies, prescribed medications or a person to assist with activities of daily living.

**FAST members must possess the knowledge, skills, and abilities to work in their area of specialty, as well as a minimum of two years' experience working with and assessing the needs of people with disabilities and/or access and functional needs.**

**There is no cost for this course; however, seating is limited. Attendees must complete both days for Functional Assessment Service Team credential.**

<p><b>STAS:</b> Prevention through detection and deterrence is the cornerstone of California's Homeland Security strategy. Prevention has at its core cooperation; sharing between agencies and across the full range of public safety disciplines. Our state prevention strategy (State Threat Assessment System-STAS) has four Regional Threat Assessment Centers (RTACs) collocated with the four FBI Field offices in California, minimizing reporting conflicts, providing statewide coverage and facilitating coordination with our Federal partners. The RTACs maintain a regional threat assessment focus for their area of responsibility and directly connect to each other and the State Terrorism Assessment Center in Sacramento to collaborate on strategic products and situational awareness.</p>
