

Appendix E: Private Nonprofit Facility Eligibility Examples

Below are examples of private nonprofit (PNP) facility eligibility determinations.

I. Facility Owned by PNP – PNP Leases Portion of Facility to For-Profit Service

Parkland Hospital is an eligible PNP that owns a medical office building and leases a portion of it to doctors and laboratories that are providing for-profit services. The for-profit leases are for 70 percent of the floor space, excluding the common area floor space, as defined in this policy.

Analysis

The building is ineligible because more than 50% of the building space is leased to an ineligible applicant.

II. PNP Recreational Center Providing Eligible Services

The PNP Springtown Recreation Center claims that it provides eligible essential social services in addition to its recreation activities and should be eligible for assistance. The organization claims that its services now include day care for elderly adults, senior citizen center programs, programs for families of domestic abuse, and shelter workshops. These programs are provided by the recreation center staff and offered 5 days a week. Recreation activities are limited to evenings and weekends. The entire center is used for the eligible services.

Analysis

The organization would not appear to be eligible based upon its name and presumed mission. A detailed examination is necessary to determine the eligibility of the organization and its facility based upon the eligible services provided. In cases where space is not dedicated to any specific activity, the amount of time dedicated to eligible purposes in such spaces determines eligibility and the level of assistance. Therefore, even though the entire facility is used for eligible purposes, FEMA prorates PA funding based on the proportion of the total time it is used for eligible services.

III. Support Facility Owned by PNP

A parking garage is owned by an eligible PNP hospital to support its nearby hospital facility. The ground floor is leased to retail businesses and totals 15 percent of the total space of the garage.

Analysis

Title 44 of the Code of Federal Regulations (C.F.R.) § 206.221(e), Private nonprofit facility, authorizes assistance for administrative and support facilities essential to the operation of medical facilities and emergency facilities, which in this example includes the parking garage. Because the hospital uses more than 50% of the parking garage, the facility is eligible based on primary use. FEMA assistance would be prorated based on the percentage of space used for the eligible parking purpose. The parking garage is eligible only because of its association with the hospital.

IV. Facilities Owned by PNP Homeowners' Association

The Woodlands Homeowners' Association is a PNP organization responsible for providing certain services for a 200-home development. The Homeowners' Association is responsible for the local neighborhood streets, water system, sewage system, fire station, medical clinic, neighborhood park, community center, and a recreational lake and dam.

Analysis

The Homeowners' Association provides eligible critical services and therefore is an eligible PNP. The eligibility of each service is considered separately. The lake, dam, and park are not eligible PNP facilities because they provide primarily recreational services. The water and sewage systems meet the definition of a utility and are eligible for assistance. The fire station and medical clinic are eligible as emergency and medical facilities. The streets which support provision of any critical services directly by the PNP are eligible facilities. However, the eligibility of street-related work depends on whether the streets have restricted access and the type of work involved. The community center is considered more closely. If it is primarily used as a gathering place for a variety of social, educational enrichment, and community service activities, it is eligible because it provides noncritical but essential social services. To be eligible, it must serve the general public outside the Homeowners' Association community.

V. Recreational Center – Primarily Athletic Services

Westover Recreation Center sponsors a variety of activities. The center is available for rental on Friday, Saturday, and Sunday evenings to companies, religious groups, clubs, and civic organizations. It is offered as a location for league parties, office parties, seminars, conferences, and holiday celebrations. The center has rooms set aside for seniors' bridge and other card games, along with occasional workshops for photography, pottery and ceramics, and art. However, the center is primarily oriented to athletics, as exemplified by a large indoor pool and locker room, a half dozen squash/racquetball courts, a weight/exercise room, and a 9,200-square-foot gymnasium/basketball court.

Analysis

Although Westover Recreation Center offers some eligible noncritical essential social services, it is, first and foremost, a recreation center. In contrast to the definition of an eligible community center, it is neither established nor primarily used as a gathering place for a variety of social, educational enrichment, and community service activities, even though it does offer some of these. Facilities established or primarily used for athletic (or) recreational activities are ineligible community centers. The Articles of Incorporation filed with the state verify that Westover was established for recreational purposes. It is not necessary to calculate the percentage of time or space devoted to community activities versus athletic and recreational activities, because Westover is on its face overwhelmingly athletic and recreational. For these reasons, a PNP facility similar to Westover would not be eligible.

VI. Mixed Use Community Center – Nominal Fee

Somerset Community Center consists of several meeting rooms, a lending library, social services room, health services room, dining room, activity area with games and a wide-screen TV, darkroom, pianos for practice, ceramics lab, woodshop, computer room, sewing machines, exercise room, and a large foyer. Outside are a fitness trail, garden plots, an outdoor basketball court and softball field, a gazebo, and picnic area.

A nominal membership fee is charged. Classes are offered in piano, bridge, arts and crafts, and cooking. The center sponsors numerous seniors' activities, which include trips, luncheons, and recreational and educational activities. A lunch program is offered for seniors and their spouses. Some exercise classes are also offered. Health screenings and immunizations are regularly offered. Door-to-door transportation is provided to those who need it.

Analysis

By virtue of the wide range of eligible community center activities, Somerset Community Center would be an eligible community center. Although it does offer athletic and recreational activities, these are minimal in the time and space allocated to them; therefore, it is not a recreational center. As the fee is nominal, it is open to the public.

VII. School Operated by a Religious Institution

The Community Church operates a state-certified private school offering first through eighth grades. The teaching curriculum includes math, science, English, history, physical education, and religious doctrine. The school has an average attendance of 500 students. The campus consists of three buildings: one used primarily for the secular curriculum, one used primarily for religious instruction, and a chapel primarily used for religious worship. Admissions to the school are restricted to members of Community Church.

Analysis

Evaluate the three buildings separately. The two buildings used, respectively, for secular and religious education are eligible as educational facilities. As educational facilities, they are considered to provide critical services and therefore Community Church does not need to apply to SBA to receive funding for permanent work on those buildings. The chapel is eligible as a house of worship. Houses of worship provide noncritical services, so Community Church is required to apply for an SBA loan for the chapel. The restricted admissions process does not affect eligibility. Pursuant to Stafford Act Section 102(11)(B), no PNP facility is excluded from eligibility because leadership or membership in the organization is limited to people that share a religious faith or practice.

VIII. Religious Institution with a Dock, a Church, and a Pastor's Residence

A religious institution owns multiple structures within its campus. One of the structures is a dock primarily used for recreation. The buildings include a church that provides worship services and a pastoral residence.

Analysis

Evaluate the structures separately. The dock is ineligible because its use is primarily recreational, which is an ineligible service. The church is eligible because its primary use is as a house of worship. The residence is not eligible because a private residence is not an eligible PNP service. The applicant must apply for an SBA loan for repairs to the church as it provides a noncritical service.
